We confirm that the UNIPAL® corrugated pallets produced by GREENLIGHT PALLET COMPANY, LLC and exported to Australia, Brazil, Canada, China, Hong Kong, India, Israel, Japan, Korea, Mexico, New Zealand, South Africa, The European Union and other nations, are completely free of living insects. UNIPAL® corrugated pallets are exempt from the International Standard for Phytosanitary Measures (ISPM-15) and conform with AQIS requirements as of May 2005.

This UNIPAL® pallet is a manufactured corrugated product manufactured with high performance liners, wet strength mediums and weatherproof adhesives, is not a "solid wood packaging material" and, as such, requires no additional treatment for infestation.

UNIPAL® pallets are manufactured by folding and gluing corrugated packaging material into a final form. There is no WPM content in the UNIPAL® pallet and is not a "solid wood packaging Material". The UNIPAL® corrugated pallet does not require any additional treatment for infestation.
